- On the propagation of shock waves in regions of non-uniform density. *Proc. Roy. Soc. London. Ser. A.* 228, 82-99 (1955). (Cabannes) 16-641.
- Elements of an improved linear perturbation theory of steady supersonic flow with axial symmetry. *Proc. Cambridge Philos. Soc.* 52 (1956), 336-343. (H. Cabannes) 17-914.
- and Miller, J. C. P.; Conn, J. F. C.; Pankhurst, R. C.
Tables of Chebyshev polynomials. *Proc. Roy. Soc. Edinburgh. Sect. A.* 62, 187-203 (1946). (Greville) 8-172.

Jones, Doris M.

---- and Martin, P.; Moira, E.; Thornhill, C. K.

A note on the pseudo-stationary flow behind a strong shock diffracted or reflected at a corner. *Proc. Roy. Soc. London. Ser. A.* 209, 238-248 (1951). (Serrin) 13-1001.

Jones, Douglas S.

Note on diffraction by an edge. *Quart. J. Mech. Appl. Math.* 3, 420-434 (1950). (Bouwkamp) 12-774.

Diffraction by a wave-guide of finite length. *Proc. Cambridge Philos. Soc.* 48, 118-134 (1952). (A. E. Heins) 13-707.

The behaviour of the intensity due to a surface distribution of charge near an edge. *Proc. London Math. Soc.* (3) 2, 440-454 (1952). (A. E. Heins) 14-822.

Diffraction by an edge and by a corner. *Quart. J. Mech. Appl. Math.* 5, 363-378 (1952). (A. E. Heins) 14-518.

A simplifying technique in the solution of a class of diffraction problems. *Quart. J. Math., Oxford Ser.* (2) 3, 189-196 (1952). (A. E. Heins) 14-474.

The eigenvalues of $\nabla^2 u + \lambda u = 0$ when the boundary conditions are given on semi-infinite domains. *Proc. Cambridge Philos. Soc.* 49, 668-684 (1953). (Gårding) 15-319.

Diffraction by a thick semi-infinite plate. *Proc. Roy. Soc. London. Ser. A.* 217, 153-175 (1953). (A. E. Heins) 14-1043.

A critique of the variational method in scattering problems. *Div. Electromag. Res., Inst. Math. Sci. New York Univ., Res. Rep. No. EM-78, i + 18 pp.* (1955). (E. T. Copson) 16-1175.

On the scattering cross section of an obstacle. *Phil. Mag.* (7) 46 (1955), 957-962. (C. J. Bouwkamp) 18-627.

The scattering of a scalar wave by a semi-infinite rod of circular cross section. *Philos. Trans. Roy. Soc. London. Ser. A.* 247, 499-528 (1955). (A. E. Heins) 17-107.

Note on Whitham's 'The propagation of weak spherical shocks in stars'. *Proc. Cambridge Philos. Soc.* 51, 476-485 (1955). (M. H. Rogers) 16-1117.

Note on the steady flow of a fluid past a thin aerofoil. *Quart. J. Math., Oxford Ser.* (2) 6, 4-8 (1955). (J. W. Miles) 16-971.

A new method for calculating scattering with particular reference to the circular disc. *Comm. Pure Appl. Math.* 9 (1956), 713-746. (N. Chako) 20#4411.

Approximate methods in high-frequency scattering. *Proc. Roy. Soc. London. Ser. A.* 239 (1957), 338-348. (F. Ursell) 18-967.

High-frequency scattering of electromagnetic waves. *Proc. Roy. Soc. London. Ser. A.* 240 (1957), 206-213. (A. E. Heins) 19-92.

---- and Pidduck, F. B.

Diffraction by a metal wedge at large angles. *Quart. J. Math., Oxford Ser.* (2) 1, 229-237 (1950). (A. E. Heins) 12-223.

---- and Whitham, G. B.

An approximate treatment of high-frequency scattering. *Proc. Cambridge Philos. Soc.* 53 (1957), 691-701. (A. E. Heins) 19-1225.

Jones, E. E.

The effect of the non-uniformity of the stream on the aerodynamic characteristics of a moving aerofoil. *Quart. J. Mech. Appl. Math.* 4, 64-77 (1951). (Sears) 13-175.

The flexure of a non-uniform beam. *Pacific J. Math.* 5 (1955), 799-806. (B. Levi) 17-686.

The magnetostatic characteristics of two non-magnetic elliptic cylinders. *J. Math. Phys.* 35 (1956), 266-277. (A. E. Green) 18-970.

Finite Fourier transform analysis of the flexure of a non-uniform beam. *J. Roy. Aero. Soc.* 60 (1956), 805-806. 19-996.

The forces on a thin aerofoil in slightly parabolic shear flow. *Z. Angew. Math. Mech.* 37 (1957), 362-370. (German, French and Russian summaries) (G. N. Lance) 19-795.

Jones, F. Burton. (See also Bing, R. H.)

Concerning certain linear abstract spaces and simple continuous curves. *Bull. Amer. Math. Soc.* 45, 623-628 (1939). (J. R. Kline) 1-45.

Almost cyclic elements and simple links of a continuous curve. *Bull. Amer. Math. Soc.* 46, 775-783 (1940). (Kline) 2-73.

Certain consequences of the Jordan curve theorem. *Amer. J. Math.* 63, 531-544 (1941). (Wilder) 3-59.

Aposyndetic continua and certain boundary problems. *Amer. J. Math.* 63, 545-553 (1941). (Wilder) 3-59.

Monotonic collections of peripherally separable connected domains. *Bull. Amer. Math. Soc.* 47, 661-664 (1941). (Wilder) 3-59.

Connected and disconnected plane sets and the functional equation $f(x) + f(y) = f(x + y)$. *Bull. Amer. Math. Soc.* 48, 115-120 (1942). (Wilder) 3-229.

Measure and other properties of a Hamel basis. *Bull. Amer. Math. Soc.* 48, 472-481 (1942). (Blumberg) 4-4.

Concerning the separability of certain locally connected metric spaces. *Bull. Amer. Math. Soc.* 52, 303-306 (1946). (D. W. Hall) 7-467.

A characterization of a semi-locally-connected plane continuum. *Bull. Amer. Math. Soc.* 53, 170-175 (1947). (Wallace) 8-397.

Concerning non-aposyndetic continua. *Amer. J. Math.* 70, 403-413 (1948). (Wallace) 9-606.

A note on homogeneous plane continua. *Bull. Amer. Math. Soc.* 55, 113-114 (1949). (Roberts) 10-468.

Certain homogeneous unicoherent indecomposable continua. *Proc. Amer. Math. Soc.* 2, 855-859 (1951). (D. W. Hall) 13-573.

Concerning aposyndetic and non-aposyndetic continua. *Bull. Amer. Math. Soc.* 58, 137-151 (1952). (Moise) 14-71.

On the separation of the set of pairs of a set. J. Elisha Mitchell Sci. Soc. 68, 44-45 (1952). (Erdős) 14-544.

On certain well-ordered monotone collections of sets. J. Elisha Mitchell Sci. Soc. 69, 30-34 (1953). (Kurepa) 15-18, 1139.

On a property related to separability in metric spaces. J. Elisha Mitchell Sci. Soc. 70, 30-33 (1954). (Kurepa) 16-59.

On a certain type of homogeneous plane continuum. *Proc. Amer. Math. Soc.* 6, 735-740 (1955). (E. Dyer) 17-180.

Moore spaces and uniform spaces. *Proc. Amer. Math. Soc.* 9 (1955), 483-486. (M. E. Shanks) 20#277.

R. L. Moore's axiom 1 and metrization. *Proc. Amer. Math. Soc.* 9 (1955), 487. (M. E. Shanks) 20#278.

On the existence of weak cut points in plane continua. *Proc. Amer. Math. Soc.* 9 (1955), 530-532. (H. H. Corson) 20#3515.

Wahrscheinlichkeitsschlüsse als syntaktische Schlussformen. *Actes du XIème Congrès International de Philosophie, Bruxelles, 20-26 Août 1953, vol. XIV, pp. 105-108.* North-Holland Publishing Co., Amsterdam; Editions E. Nauwelaerts, Louvain, 1953. (ZöS) 15-386.

Deduktion, Induktion und Wahrscheinlichkeit. *Methodos* 6 (1954), 259-278. 17-818.

Jukes, J. D.

The structure of a shock wave in a fully ionized gas. *J. Fluid Mech.* 3 (1957), 275-285. (M. D. Van Dyke) 19-1007.

Julia, Gaston. (See also Beghin, H.)

Sur une définition d'opérateurs linéaires dans l'espace hilbertien. *C. R. Acad. Sci. Paris* 212, 733-736 (1941). (Goldstine) 3-51.

Sur une décomposition en produit infini des opérateurs linéaires de l'espace hilbertien. *C. R. Acad. Sci. Paris* 212, 829-831 (1941). (Goldstine) 3-7, 8-208.

Sur une classe d'opérateurs bilinéaires bornés de l'espace hilbertien. *C. R. Acad. Sci. Paris* 212, 1059-1062 (1941). (Goldstine) 5-147.

Sur une décomposition canonique des opérateurs linéaires bornés de l'espace hilbertien et sur leur classification. *C. R. Acad. Sci. Paris* 213, 5-9 (1941). (Goldstine) 5-100.

Sur la dualité dans l'espace hilbertien. *C. R. Acad. Sci. Paris* 213, 297-300 (1941). (Goldstine) 5-100.

Sur la dualité dans l'espace hilbertien et sur le domaine des valeurs des opérateurs bornés de 4^e classe. *C. R. Acad. Sci. Paris* 213, 465-469 (1941). (Goldstine) 5-100.

Décomposition en produit infini des opérateurs linéaires de l'espace hilbertien. *J. Math. Pures Appl. (9)* 20, 347-362 (1941). (Goldstine) 7-125.

Sur les projecteurs de l'espace hilbertien ou unitaire. *C. R. Acad. Sci. Paris* 214, 456-458 (1942). (Goldstine) 4-163.

Sur la représentation analytique des opérateurs linéaires dans l'espace hilbertien. *C. R. Acad. Sci. Paris* 214, 591-593 (1942). (Goldstine) 4-163.

Représentation métrique bornée des opérateurs linéaires non bornés de l'espace hilbertien. *C. R. Acad. Sci. Paris* 214, 709-710 (1942). (Goldstine) 4-163.

Die Funktionentheorie und die Theorie der Operatoren im Hilbertschen Raum. *Abh. Preuss. Akad. Wiss. Math.-Nat. Kl.* 1942, no. 11, 15 pp. (1943). (Murray) 8-277.

Quelques applications fonctionnelles de la topologie. *Reale Accademia d'Italia, Fondazione Alessandro Volta, Atti dei Convegni, v. 9* (1939), pp. 291-306, Rome, 1943. (M. Morse) 12-171.

Sur la convergence faible. *C. R. Acad. Sci. Paris* 216, 97-100 (1943). (Goldstine) 5-186.

Détermination des adjoints de quelques opérateurs linéaires non bornés de l'espace hilbertien. *C. R. Acad. Sci. Paris* 216, 221-224 (1943). (Goldstine) 6-71.

Remarques géométriques sur le problème des moments dans l'espace hilbertien. *C. R. Acad. Sci. Paris* 216, 257-260 (1943). (Goldstine) 6-70.

Sur les systèmes duaux de vecteurs dans l'espace hilbertien. *C. R. Acad. Sci. Paris* 216, 324-326 (1943). (Goldstine) 5-187.

Sur la structure des systèmes duaux dans l'espace hilbertien. *C. R. Acad. Sci. Paris* 216, 396-399 (1943). (Goldstine) 5-187.

Exemples de structure des systèmes duaux de l'espace hilbertien. *C. R. Acad. Sci. Paris* 216, 465-468 (1943). (Goldstine) 5-187.

Sur l'adjoint de l'opérateur linéaire non borné défini par une matrice. *C. R. Acad. Sci. Paris* 216, 853-856 (1943). (Goldstine) 5-271.

La théorie des fonctions et la théorie des opérateurs de l'espace hilbertien. *J. Math. Pures Appl. (9)* 22, 71-83 (1943). (Goldstine) 6-274.

Sur la convergence dans l'espace hilbertien. *C. R. Acad. Sci. Paris* 218, 376-380 (1944). (Goldstine) 6-274.

Sur les projections des systèmes orthonormaux de l'espace hilbertien. *C. R. Acad. Sci. Paris* 218, 892-895 (1944). (Goldstine) 7-307.

Les projections des systèmes orthonormaux de l'espace hilbertien et les opérateurs bornés. *C. R. Acad. Sci. Paris* 219, 8-11 (1944). (Goldstine) 7-252.

Sur la représentation analytique des opérateurs bornés ou fermés de l'espace hilbertien. *C. R. Acad. Sci. Paris* 219, 225-227 (1944). (Goldstine) 7-307.

Les symétries dans l'espace hilbertien. *C. R. Acad. Sci. Paris* 221, 81-83 (1945). (Halperin) 7-252.

Décomposition des opérateurs unitaires ou isométriques en produit de symétries. *C. R. Acad. Sci. Paris* 221, 265-267 (1945). (Halperin) 7-252.

Sur deux propriétés des matrices infinies, hermitiennes positives. *C. R. Acad. Sci. Paris* 221, 317-319 (1945). (Halperin) 7-252.

Sur les racines carrées hermitiennes d'un opérateur hermitien positif donné. *C. R. Acad. Sci. Paris* 222, 707-709 (1946). (Halmos) 7-452.

Remarques sur les racines carrées hermitiennes d'un opérateur hermitien positif borné. *C. R. Acad. Sci. Paris* 222, 829-832 (1946). (Halmos) 7-453.

Sur la représentation spectrale des racines hermitiennes d'un opérateur hermitien positif donné. *C. R. Acad. Sci. Paris* 222, 1019-1022 (1946). (Halmos) 7-453.

Sur les racines carrées self-adjointes d'un opérateur self-adjoint positif non borné. *C. R. Acad. Sci. Paris* 222, 1061-1063 (1946). (Halmos) 7-453.

Sur les racines n^{ièmes} hermitiennes d'un opérateur hermitien donné. *C. R. Acad. Sci. Paris* 222, 1465-1468 (1946). (Halmos) 7-453.

Sur les convergences faible et forte dans l'espace d'Hilbert. *Publ. Inst. Mat. Univ. Nac. Litoral* 6, 255-272 (1946). (Goldstine) 8-32.

Sur la convergence uniforme simultanée des séries correspondant à deux opérateurs linéaires associés et totalement continus. *Collectanea Math.* 1, 61-66 (1948). (Cooper) 11-371.

Sur une propriété caractéristique des systèmes orthonormaux complets; généralisation. C. R. Acad. Sci. Paris 226, 1485-1487 (1948). (Halmos) 9-516.

Sur des systèmes de vecteurs généralisant les systèmes orthonormaux. C. R. Acad. Sci. Paris 227, 168-170 (1948). (Halmos) 10-48.

Les systèmes orthonormaux complets et leurs généralisations dans l'espace hilbertien. C. R. Acad. Sci. Paris 227, 317-320 (1948). (Halmos) 10-129.

Sur les systèmes complets de l'espace hilbertien. C. R. Acad. Sci. Paris 227, 413-416 (1948). (Halmos) 10-129.

Détermination de toutes les racines carrées d'un opérateur hermitien borné quelconque. C. R. Acad. Sci. Paris 227, 792-794 (1948). (Halmos) 10-306.

Détermination de toutes les racines carrées d'un opérateur hermitien borné quelconque (2^e méthode). C. R. Acad. Sci. Paris 227, 931-933 (1948). (Halmos) 10-306.

Quelques progrès récents dans la théorie des opérateurs linéaires de l'espace hilbertien. Analyse Harmonique, Colloques Internationaux du Centre National de la Recherche Scientifique, no. 15, pp. 55-65. Centre National de la Recherche Scientifique, Paris, 1949. (Halmos) 11-371.

Quelques caractères des opérateurs hermitiens permutables ou antipermutables. Ann. Mat. Pura Appl. (4) 30, 185-189 (1949). (Halmos) 11-669.

Sur la permutabilité et l'antipermutabilité des opérateurs hermitiens. C. R. Acad. Sci. Paris 228, 962-964 (1949). (Halmos) 10-547.

Les racines, carrées et $n^{\text{ièmes}}$, des opérateurs hermitiens dans l'espace unitaire ou hilbertien. Algèbre et Théorie des Nombres. Colloques Internationaux du Centre National de la Recherche Scientifique, no. 24, pp. 195-198. Centre National de la Recherche Scientifique, Paris, 1950. (Halmos) 12-836.

La vie et l'oeuvre de J.-L. Lagrange. Enseignement Math. 39 (1942-1950), 9-21 (1951). 13-2.

Cours de géométrie infinitésimale. Premier fascicule. Vecteurs et tenseurs. Théorie élémentaire. 2^{ème} éd. Gauthier-Villars, Paris, 1953. xv + 102 + i pp. (Allendoerfer) 15-352.

Quelques réflexions sur les progrès comparés des mathématiques et de la physique en France après 1815. Louis de Broglie, physicien et penseur, pp. 413-419. Editions Albin Michel, Paris 1953. 16-551.

La structure des p-groupes de Sylow des groupes symétriques finis. Ann. Sci. Ecole Norm. Sup. (3) 65, 239-276 (1948). (Jennings) 10-505.

Une propriété des suites caractéristiques d'un p-groupe. C. R. Acad. Sci. Paris 229, 1105-1107 (1949). (Jennings) 11-579.

Sur les sous-groupes centraux d'un produit complet de groupes abéliens. C. R. Acad. Sci. Paris 229, 1289-1291 (1949). (Jennings) 12-240.

Quelques idées au sujet du mémoire de M. G. Neymann "L'estimation statistique traitée comme un problème classique de probabilité." Publ. Math. Debrecen 1, 101-103 (1949). (Wolfowitz) 12-36.

Le produit complet des groupes et la théorie d'extension de Schreier. Algèbre et Théorie des Nombres. Colloques Internationaux du Centre National de la Recherche Scientifique, no. 24, pp. 203-206. Centre National de la Recherche Scientifique, Paris, 1950. 14-242.

Addendum: Sur les groupes abéliens primaires sans éléments de hauteur infinie. C. R. Acad. Sci. Paris 230, 1327 (1950). 11-496.

Caractérisation de certains sous-groupes centraux d'un produit complet de groupes abéliens. C. R. Acad. Sci. Paris 230, 1633-1634 (1950). (Jennings) 12-240.

Sur quelques propriétés des groupes d'automorphismes d'un groupe abstrait. C. R. Acad. Sci. Paris 230, 2067-2069 (1950). (M. Hall) 12-77.

Sur quelques propriétés des groupes d'automorphismes d'un groupe abstrait. (Généralisation d'un théorème de M. Ph. Hall). C. R. Acad. Sci. Paris 231, 400-402 (1950). (M. Hall) 12-240.

Über eine Verallgemeinerung der p-Sylowgruppen symmetrischer Gruppen. Acta Math. Acad. Sci. Hungar. 2, 197-221 (1951). (Russian. German summary) (Hirsch) 14-617.

Über gewisse Beziehungen zwischen einer Gruppe und ihren Automorphismen. Bericht über die Mathematiker-Tagung in Berlin, Januar, 1953, pp. 164-172. Deutscher Verlag der Wissenschaften, Berlin, 1953. (Hirsch) 17-456.

Zum Problem der Klassifikation der endlichen metabelschen p-Gruppen. Wiss. Z. Humboldt-Univ. Berlin. Math.-Nat. Reihe 4, 1-7 (1955). (F. Haimo) 17-234.

Central extensions of abelian groups. I. Ukrain. Mat. Z. 8 (1956), 262-272. (Russian) (Z. I. Borevič) 20#6457.

Central Γ -subextensions of the complete product of abelian groups. Ukrain. Mat. Z. 8 (1956), 413-422. (Russian) (B. I. Plotkin) 20#6458.

---- et Krasner, Marc.

Le produit complet des groupes de permutations et le problème d'extension des groupes. C. R. Acad. Sci. Paris 227, 806-808 (1948). (Jennings) 10-351.

On certain special commutative normed rings. Doklady Akad. Nauk SSSR (N.S.) 64, 281-284 (1949). (Russian) (Segal) 10-462, 856.
On theorems of Tauberian type. Doklady Akad. Nauk SSSR (N.S.) 64, 449-452 (1949). (Russian) (Segal) 11-26.
On lacunary Laplace-Stieltjes integrals. Doklady Akad. Nauk SSSR (N.S.) 76, 779-782 (1951). (Russian) (Boas) 15-120.
Theorems of Tauberian type for a class of Dirichlet series. Doklady Akad. Nauk SSSR (N.S.) 81, 725-727 (1951). (Russian) (Lorentz) 13-548.
On a problem of interpolation. Doklady Akad. Nauk SSSR (N.S.) 81, 991-994 (1951). (Russian) (Boas) 13-446.
On the convergence theory of Fourier series. Dopovidi Akad. Ukrain. RSR 1951, 320-323 (1951). (Ukrainian. Russian summary) (Zygmund) 15-619.
On two theorems from the theory of absolutely monotonic functions. Uspehi Matem. Nauk (N.S.) 6, no. 4(44), 172-175 (1951). (Russian) (Boas) 13-329.
A general Tauberian theorem for the ratio of functions. Doklady Akad. Nauk SSSR (N.S.) 88, 745-748 (1953). (Russian) (Lorentz) 14-866.
On the asymptotic behavior of Laplace integrals near the boundary of a region of convergence. Dokl. Akad. Nauk SSSR (N.S.) 104 (1955), 173-176. (G. Lorentz) 17-605.
Generalization of Wiener's Tauberian theorem and the spectrum of fast growing functions. Dokl. Akad. Nauk SSSR (N.S.) 111 (1956), 280-282. (Russian) (G. Lorentz) 19-46.
On a normed ring of functions with convolution. Dokl. Akad. Nauk SSSR (N.S.) 115 (1957), 226-229. (Russian) (E. Hewitt) 19-968.
Harmonic analysis of fast growing functions. Uspehi Mat. Nauk (N.S.) 12 (1957), no. 1(73), 201-203. (Russian) (A. Devinatz) 18-892.
---- and Kreĭn, S. G.; Levin, B. Ya.
On certain nonlinear questions of the theory of singular integrals. Doklady Akad. Nauk SSSR (N.S.) 62, 17-20 (1948). (Russian) (Zygmund) 10-306.
Korenev, B. G.
Solution of problems of equilibrium, oscillation and stability by means of compensating loads. J. Appl. Math. Mech. [Akad. Nauk SSSR. Zhurnal Prikl. Mat. Mech.] (N.S.) 4, no. 5-6, 61-72 (1940). (Russian. English summary) (Sadovsky) 3-224.
On the application of compensating loads. Appl. Math. Mech. [Akad. Nauk SSSR. Prikl. Mat. Mech.] 6, 91-94 (1942). (Russian. English summary) 4-180.

Method of initial parameters in problems of circular plates and shells of revolution. Appl. Math. Mech. [Akad. Nauk SSSR. Prikl. Mat. Mech.] 10, 165-172 (1946). (Russian. English summary) (Sokolnikoff) 8-118.

On the computation of beams and plates taking account of plastic deformation. Akad. Nauk SSSR. Inženernyĭ Sbornik 5, no. 1, 58-61 (1948). (Russian) (Ansoff) 13-800.

On the bending of unbounded plates lying on an elastic foundation. Doklady Akad. Nauk SSSR (N. S.) 78, 417-420 (1951). (Russian) (Leser) 13-89.

On the bending of a plate lying on an elastic foundation by loads distributed on a straight line and on a right angle. Doklady Akad. Nauk SSSR (N. S.) 79, 411-414 (1951). (Russian) 13-89.

Korevaar, Jacob. (See also Waerden, B. L.)

Some entire functions represented in a half-plane by Laplace integrals. Mathematica, Zutphen. B. 12, 107-114 (1944). (Dutch) (Boas) 7-294.

A theorem on uniform convergence. Nederl. Akad. Wetensch., Proc. 49, 752-757 (1946). (Pollard) 8-140.

The uniform approximation to continuous functions by linear aggregates of functions of a given set. Duke Math. J. 14, 31-50 (1947). (Pollard) 9-29.

A characterization of the sub-manifold of $C[a, b]$ spanned by the sequence $\{x_k^n\}$. Nederl. Akad. Wetensch., Proc. 50, 750-758 = Indagationes Math. 9, 360-368 (1947). (Bourgin) 9-346.

An elementary proof of a Tauberian theorem for Lambert series. Simon Stevin 25, 83-114 (1947). (Dutch) (Hille) 9-87.

A theorem on uniform approximation. Simon Stevin 25, 201-207 (1947). 9-582.

The zeros of the derivative of a function and its analytic character. Math. Centrum Amsterdam. Rapport ZW 1948-004, 9 pp. (1948). (Boas) 10-358.

Entire functions of exponential type. Math. Centrum Amsterdam. Rapport ZW 1948-011, 10 pp. (1948). (Dutch) (Boas) 10-442.

The zeros of polynomials converging to an entire function and its canonical representation. Math. Centrum Amsterdam. Rapport ZW 1948-017, 18 pp. (1948). (Dutch. English summary) (Boas) 10-695.

Interpolatory methods applied to functions of exponential type. Math. Centrum Amsterdam. Rapport ZW 1948-018, 16 pp. (1948). (Dutch. English summary) (Boas) 10-442.

Approximation and Interpolation Applied to Entire Functions. Thesis, University of Leiden, 1949. viii + 56 pp. (Sheffer) 10-694.

Functions with only monotonic derivatives. Handelingen van het XXXI^e Nederlands Natuur- en Geneeskundig Congres, pp. 88-89, Haarlem, 1949. (Dutch) (Boas) 11-334.

An inequality for entire functions of exponential type. Nieuw Arch. Wiskunde (2) 23, 55-62 (1949). (Boas) 10-289.

A simple proof of a theorem of Pólya. Simon Stevin 26, 81-89 (1949). (Boas) 10-441.

Functions of exponential type bounded on sequences of points. Ann. Soc. Polon. Math. 22 (1949), 207-234 (1950). (Sheffer) 11-651.

The zeros of approximating polynomials and the canonical representation of an entire function. Duke Math. J. 18, 573-592 (1951). (Kober) 13-222.

An estimate of the error in Tauberian theorems for power series. Duke Math. J. 18, 723-734 (1951). (Ingham) 13-227.

Best L_1 approximation and the remainder in Littlewood's theorem. Nederl. Akad. Wetensch. Proc. Ser. A. 56 = Indagationes Math. 15, 281-293 (1953). (Zamansky) 15-119.

Entire functions as limits of polynomials. Duke Math. J. 21, 533-548 (1954). (Kober) 16-347.

A very general form of Littlewood's theorem. Nederl. Akad. Wetensch. Proc. Ser. A. 57 = Indagationes Math. 16, 36-45 (1954). (Agnew) 15-698.

Another numerical Tauberian theorem for power series. Nederl. Akad. Wetensch. Proc. Ser. A. 57 = Indagationes Math. 16, 46-56 (1954). (Agnew) 15-698.

Numerical Tauberian theorems for Dirichlet and Lambert series. Nederl. Akad. Wetensch. Proc. Ser. A. 57 = Indagationes Math. 16, 152-160 (1954). (Zamansky) 15-950.

Numerical Tauberian theorems for power series and Dirichlet series. I, II. Nederl. Akad. Wetensch. Proc. Ser. A. 57 = Indagationes Math. 16, 432-443, 444-455 (1954). (Agnew) 16-239.

The Riemann hypothesis and numerical Tauberian theorems for Lambert series. Nederl. Akad. Wetensch. Proc. Ser. A. 57 = Indagationes Math. 16, 564-571 (1954). (Agnew) 16-465.

Kloosterman's method in Tauberian theorems for C_k summability. Proc. Amer. Math. Soc. 5, 574-577 (1954). (Bosanquet) 16-351.

Entire functions as limits of polynomials. Lectures on functions of a complex variable, pp. 421-423. The University of Michigan Press, Ann Arbor, 1955. 16-1010.

Distributions defined from the point of view of applied mathematics. I. Fundamental sequences. Nederl. Akad. Wetensch. Proc. Ser. A. 58 = Indag. Math. 17, 368-378 (1955). (L. Schwartz) 17-63.

Distributions defined by fundamental sequences. II. Derivatives and antiderivatives, Laplace transformation. Nederl. Akad. Wetensch. Proc. Ser. A. 58 = Indag. Math. 17, 379-389 (1955). (L. Schwartz) 17-63.

Distributions defined by fundamental sequences. III. Convergence. Convolution. Definite integral. Inverse Laplace transformation. Nederl. Akad. Wetensch. Proc. Ser. A. 58 = Indag. Math. 17 (1955), 483-493. (L. Schwartz) 17-354.

Distributions defined by fundamental sequences. IV. Multiplication and division. Substitution. Nederl. Akad. Wetensch. Proc. Ser. A. 58 = Indag. Math. 17 (1955), 494-503. (L. Schwartz) 17-354.

Distributions defined by fundamental sequences. V. Integral of a product. Fourier series. Connection with Schwartz' theory. Nederl. Akad. Wetensch. Proc. Ser. A. 58 = Indag. Math. 17 (1955), 663-674. (I. Halperin) 17-594.

Tauberian theorems. Simon Stevin 30, 129-139 (1955). (R. P. Agnew) 17-255.

---- and van Aardenne-Ehrenfest, T.; de Bruijn, N. G. A note on slowly oscillating functions. Nieuw Arch. Wiskunde (2) 23, 77-86 (1949). (Boas) 10-358.

---- and Scheelbeek, P. A. J.

Inversion of a matrix. Math. Centrum Amsterdam. Rapport ZTW 1949-001, 5 pp. (1949). (Dutch) (Goodman) 11-3.

Korff, Günther.

Das Prinzip der Totalundeutlichkeit bei der trigonometrischen Durchrechnung. Z. Instrumentenkunde 63, 1-8 (1943). (Boeder) 5-52.

Ein Ausgleichsverfahren für die Koeffizientenbestimmung in der Potenzreihenentwicklung der sphärischen Aberration. Z. Instrumentenkunde 63, 81-90 (1943). 4-284.

Korickiĭ, G. V. (= Koritsky) (See also Basilevič, I. E.)

On curvature of level lines and of their orthogonal trajectories in conformal mappings. Mat. Sb. N. S. 37(79), 103-116 (1955). (Russian) (A. W. Goodman) 17-26.

Curvature of level curves in univalent conformal mappings. Dokl. Akad. Nauk SSSR (N. S.) 115 (1957), 653-654. (Russian) (A. W. Goodman) 19-845.

Körnek, Vladimír.

Bemerkung über charakteristisch einfache Gruppen. Věstník Královské České Společnosti Nauk. Třída Matemat.-Přirodověd. 1940, no. 8, 8 pp. (1941). (German. Czech and English summaries) (Tuan) 7-410; 13-1138.

Der Schreiersche Satz und das Zassenhaussche Verfahren in Verbänden. Věstník Královské České Společnosti Nauk. Třída Matemat.-Přirodověd. 1941, no. 14, 29 pp. (1942). (Birkhoff) 7-509; 13-1138.

Lattices in which the Jordan-Hölder theorem is generally valid. Rozprawy II. Třída České Akad. 59, no. 23, 32 pp. (1949). (Czech) (Borůvka) 12-667.

Le théorème de Jordan-Hölder dans les treillis. Algèbre et Théorie des Nombres. Colloques Internationaux du Centre

Rectifications à ma note précédente et quelques nouvelles contributions à la théorie des hypergroupes. C. R. Acad. Sci. Paris 218, 542-544 (1944). (Murdoch) 6-202.

Une généralisation de la notion de corps-corpoïde. Un corpoïde remarquable de la théorie des corps valués. C. R. Acad. Sci. Paris 219, 345-347 (1944). (Murdoch) 7-363.

Nombres semi-réels et espaces ultramétriques. C. R. Acad. Sci. Paris 219, 433-435 (1944). (Murdoch) 7-364.

Hypergroupes extramoduliformes et moduliformes. C. R. Acad. Sci. Paris 219, 473-476 (1944). (Murdoch) 7-364.

Théorie de la ramification dans les extensions finies des corps valués: hypergroupe de décomposition. C. R. Acad. Sci. Paris 219, 539-541 (1944). (Murdoch) 7-364.

Théorie de la ramification dans les extensions finies des corps valués: hypergroupes d'inertie et de ramification; théorie extrinsèque de la ramification. C. R. Acad. Sci. Paris 220, 28-30 (1945). (Murdoch) 7-364.

Théorie de la ramification dans les extensions finies des corps valués: compléments et applications. C. R. Acad. Sci. Paris 221, 737-739 (1945). (Murdoch) 7-364.

Théorie de la ramification dans les extensions finies des corps valués: différentiel et discriminant; théorie intrinsèque de la ramification. C. R. Acad. Sci. Paris 220, 761-763 (1945). (Murdoch) 7-364.

Essai d'une théorie des fonctions analytiques dans les corps valués complets: séries de Taylor et de Laurent issues de ces corps. C. R. Acad. Sci. Paris 222, 37-40 (1946). (Murdoch) 7-429.

Essai d'une théorie des fonctions analytiques dans les corps valués complets: fonctions holomorphes et méromorphes. C. R. Acad. Sci. Paris 222, 165-167 (1946). (Murdoch) 7-429.

Essai d'une théorie des fonctions analytiques dans les corps valués complets: théorèmes de Nevanlinna; transformations holomorphes. C. R. Acad. Sci. Paris 222, 363-365 (1946). (Murdoch) 7-429.

Essai d'une théorie des fonctions analytiques dans les corps valués complets: transformations holomorphes et leurs applications algébriques; fonctions holomorphes de plusieurs variables et fonctions implicites; familles normales; prolongement analytique. C. R. Acad. Sci. Paris 222, 581-583 (1946). (Murdoch) 7-429.

Théorie non abélienne des corps de classes pour les extensions finies et séparables des corps valués complets: principes fondamentaux; espaces de polynômes et transformation T ; lois d'unicité, d'ordination et d'existence. C. R. Acad. Sci. Paris 222, 626-628 (1946). (Murdoch) 7-510.

Théorie non-abélienne des corps de classes pour les extensions finies et séparables des corps valués complets: conducteur, théorie de l'irrégularité. C. R. Acad. Sci. Paris 222, 984-986 (1946). (Murdoch) 7-510.

Théorie non-abélienne des corps de classes pour les extensions finies et séparables des corps valués complets: relations avec la théorie de la ramification; loi de limitation pour les extensions galoisiennes. C. R. Acad. Sci. Paris 222, 1370-1372 (1946). (Murdoch) 8-62, 708.

Certaines propriétés des séries de Taylor d'un ensemble au plus dénombrable de variables dans les corps valués complets et une démonstration structurale des formules de M. Pollaczek. Bull. Sci. Math. (2) 71, 123-152, 180-200 (1947). (Hull) 10-16.

Théorie non abélienne des corps de classes pour les extensions finies et séparables des corps valués complets: approximation des corps valués complets par les suites de corps valués complets. C. R. Acad. Sci. Paris 224, 173-175 (1947). (Murdoch) 8-366.

Théorie non abélienne des corps de classes pour les extensions finies et séparables des corps valués complets: approximation des corps de caractéristique $p \neq 0$ par ceux de caractéristique 0; modifications de la théorie. C. R. Acad. Sci. Paris 224, 434-436 (1947). (Murdoch) 8-366.

Théorie non-abélienne des corps de classes pour les extensions galoisiennes des corps de nombres algébriques: bimatrices; représentations bimatriielles des semi-groupes abéliens libres. C. R. Acad. Sci. Paris 225, 785-787 (1947). (Murdoch) 9-223.

Théorie non abélienne des corps de classes pour les extensions galoisiennes des corps de nombres algébriques: anneau des représentations d'un groupe; représentations associées du groupe de Galois et du semi-groupe des idéaux. C. R. Acad. Sci. Paris 225, 973-975 (1947). (Murdoch) 9-223.

Théorie non abélienne des corps de classes pour les extensions galoisiennes des corps de nombres algébriques: anneau principal; lois d'unicité, d'ordination, d'existence (forme provisoire), d'isomorphisme et de décomposition; loi de monodromie. C. R. Acad. Sci. Paris 225, 113-115 (1947). (Murdoch) 9-326.

Théorie non abélienne des corps de classes pour les extensions galoisiennes des corps de nombres algébriques: conséquences de la loi de monodromie; résumé de la théorie locale. C. R. Acad. Sci. Paris 226, 535-537 (1948). (Murdoch) 9-408.

Théorie non abélienne des corps de classes pour les extensions galoisiennes des corps de nombres algébriques: f -extensions; conducteur. C. R. Acad. Sci. Paris 226, 1231-1233 (1948). (Murdoch) 9-563.

Théorie non abélienne des corps de classes pour les extensions galoisiennes des corps de nombres algébriques: forme définitive de la loi d'existence. C. R. Acad. Sci. Paris 226, 1656-1658 (1948). (Murdoch) 9-563.

Le produit complet et la théorie de la ramification: préliminaires. C. R. Acad. Sci. Paris 229, 1103-1105 (1949). (Jennings) 11-578.

Le produit complet et la théorie de la ramification: extra-modules; résumé de l'ancienne théorie. C. R. Acad. Sci. Paris 229, 1287-1289 (1949). (Jennings) 11-578.

Généralisation abstraite de la théorie de Galois. Algèbre et Théorie des Nombres. Colloques Internationaux du Centre National de la Recherche Scientifique, no. 24, pp. 163-168. Centre National de la Recherche Scientifique, Paris, 1950. (Kolchin) 12-796.

Quelques méthodes nouvelles dans la théorie des corps valués complets. Algèbre et Théorie des Nombres. Colloques Internationaux du Centre National de la Recherche Scientifique, no. 24, pp. 29-39. Centre National de la Recherche Scientifique, Paris, 1950. (Moysl) 13-441.

Le produit complet et la théorie de la ramification: résumé de l'ancienne théorie (fin); la nouvelle théorie. C. R. Acad. Sci. Paris 230, 162-164 (1950). (Jennings) 11-578.

Une loi de réciprocité (préliminaires). C. R. Acad. Sci. Paris 233, 995-997 (1951). (Whaples) 13-537.

Une loi de réciprocité. C. R. Acad. Sci. Paris 233, 1409-1411 (1951). (Whaples) 13-537.

Généralisations nonabéliennes de la théorie locale des corps des classes. Proceedings of the International Congress of Mathematicians, Cambridge, Mass., 1950, vol. 2, pp. 71-76. Amer. Math. Soc., Providence, R. I., 1952. (Mills) 13-441.

The non-existence of certain extensions. Amer. J. Math. 75, 112-116 (1953). (Schafer) 14-613.

La non-existence des extensions d'une certaine forme. C. R. Acad. Sci. Paris 237, 370-372 (1953). (Schafer) 15-96.

Compléments à ma note précédente "Sur la non-existence des extensions d'une certaine forme". C. R. Acad. Sci. Paris 237, 685-687 (1953). (Schafer) 15-97.

Prolongement analytique dans les corps valués complets: domaines quasi connexes. C. R. Acad. Sci. Paris 238, 2385-2387 (1954). (Tate) 16-799.

Prolongement analytique dans les corps valués complets: éléments analytiques, préliminaires du théorème d'unicité. C. R. Acad. Sci. Paris 239, 468-470 (1954). (Tate) 16-799.

Prolongement analytique dans les corps valués complets: démonstration de la loi d'unicité: fonctions analytiques uniformes. C. R. Acad. Sci. Paris 239, 745-747 (1954). (Tate) 16-799.

Prolongement analytique dans les corps valués complets: préservation de l'analyticité par les opérations rationnelles. C. R. Acad. Sci. Paris 244 (1957), 1304-1306. (G. Whaples) 19-395; 28, p. 1246.

- Prolongement analytique dans les corps valués complets: préservation de l'analyticité par les opérations rationnelles; quasi-connexité et éléments analytiques réguliers. C. R. Acad. Sci. Paris 244 (1957), 1599-1602 (G. Whaples) 19-395; 28, p. 1246.
- Prolongement analytique dans les corps valués complets: uniformité des fonctions analytiques; l'analyticité des fonctions méromorphes. C. R. Acad. Sci. Paris 244 (1957), 1996-1999. (G. Whaples) 19-395.
- Prolongement analytique dans les corps valués complets: préservation de l'analyticité par la convergence uniforme et par la dérivation; théorème de Mittag-Löfller généralisé pour les éléments analytiques. C. R. Acad. Sci. Paris 244 (1957), 2570-2573. (G. Whaples) 19-395.
- Prolongement analytique dans les corps valués complets: démonstration du théorème de Mittag-Löfller; singularités au bord. C. R. Acad. Sci. Paris 245 (1957), 270-274. (G. Whaples) 19-395.
- Prolongement analytique dans les corps valués complets: démonstration du théorème de Mittag-Löfller; singularités au bord. C. R. Acad. Sci. Paris 245 (1957), 1285-1288 (G. Whaples) 19-395.

- On Hermitian operators whose deficiency indices are 1. C. R. (Doklady) Acad. Sci. URSS (N.S.) 43, 323-326 (1944). (T. H. Hildebrandt) 6-131.
- On Hermitian operators with deficiency indices equal to one. II. C. R. (Doklady) Acad. Sci. URSS (N.S.) 44, 131-134 (1944). (Hildebrandt) 6-179.
- On a remarkable class of Hermitian operators. C. R. (Doklady) Acad. Sci. URSS (N.S.) 44, 175-179 (1944). (Bochner) 6-269.
- On a generalized problem of moments. C. R. (Doklady) Acad. Sci. URSS (N.S.) 44, 219-222 (1944). (Bochner) 6-270.
- On the logarithm of an infinitely decomposable Hermite-positive function. C. R. (Doklady) Acad. Sci. URSS (N.S.) 45, 91-94 (1944). (Bochner) 6-269.
- On the problem of continuation of helical arcs in Hilbert space. C. R. (Doklady) Acad. Sci. URSS (N.S.) 45, 139-142 (1944). (Bochner) 6-269.
- On a generalization of some investigations of G. Szegő, V. Smirnov and A. Kolmogoroff. C. R. (Doklady) Acad. Sci. URSS (N.S.) 46, 91-94 (1945). (Offord) 7-156.
- On a problem of extrapolation of A. N. Kolmogoroff. C. R. (Doklady) Acad. Sci. URSS (N.S.) 46, 306-309 (1945). (Bochner) 7-61.
- On self-adjoint extensions of bounded and semi-bounded Hermitian transformations. C. R. (Doklady) Acad. Sci. URSS (N.S.) 48, 303-306 (1945). (Dunford) 8-32.
- Concerning the resolvents of an Hermitian operator with the deficiency-index (m, m) . C. R. (Doklady) Acad. Sci. URSS (N.S.) 52, 651-654 (1946). (Hildebrandt) 8-277.
- On a general method of decomposing Hermite-positive nuclei into elementary products. C. R. (Doklady) Acad. Sci. URSS (N.S.) 53, 3-6 (1946). (Leibler) 8-277.
- Sur un théorème de M. Vygodsky. Rec. Math. [Mat. Sbornik] N. S. 18(60), 447-450 (1946). (Russian. French summary) (Boas) 8-91; 9-735.
- A contribution to the theory of entire functions of exponential type. Bull. Acad. Sci. URSS. Sér. Math. [Izvestia Akad. Nauk SSSR] 11, 309-326 (1947). (Russian. English summary) (Boas) 9-179.
- The theory of self-adjoint extensions of semi-bounded Hermitian transformations and its applications. II. Mat. Sbornik N. S. 21(63), 365-404 (1947). (Russian) (Nikodým) 9-515.
- The theory of self-adjoint extensions of semi-bounded Hermitian transformations and its applications. I. Rec. Math. [Mat. Sbornik] N. S. 20(62), 431-495 (1947). (Russian. English summary) (Nikodým) 9-515.
- On Hermitian operators with directed functionals. Akad. Nauk Ukrain. RSR. Zbirnik Prac' Inst. Mat. 1948, no. 10, 83-106 (1948). (Ukrainian. Russian summary) (Hewitt) 14-56.
- On some questions related to the ideas of Lyapunov in the theory of stability. Uspehi Matem. Nauk (N.S.) 3, no. 3(25), 166-169 (1948). (Russian) (Bellman) 10-128.
- Infinite J -matrices and a matrix-moment problem. Doklady Akad. Nauk SSSR (N.S.) 69, 125-128 (1949). (Russian) (Nikodým) 11-670.
- A principle of duality for bicomact groups and quadratic block algebras. Doklady Akad. Nauk SSSR (N.S.) 69, 725-728 (1949). (Russian) (Godement) 11-491.
- The fundamental propositions of the theory of representations of Hermitian operators with deficiency index (m, m) . Ukrain. Mat. Zhurnal 1, no. 2, 3-66 (1949). (Russian) (Day) 14-56.
- Hermitian positive kernels on homogeneous spaces. I. Ukrain. Mat. Zhurnal 1, no. 4, 64-98 (1949). (Russian) (Mackey) 14-480.
- On a one-dimensional singular boundary problem of even order in the interval $(0, \infty)$. Doklady Akad. Nauk SSSR (N.S.) 74, 9-12 (1950). (Russian) (Atkinson) 12-502.
- A generalization of some investigations of A. M. Lyapunov on linear differential equations with periodic coefficients. Doklady Akad. Nauk SSSR (N.S.) 73, 445-448 (1950). (Russian) (Wendel) 12-100.
- On the Sturm-Liouville boundary problem in the interval $(0, \infty)$ and on a class of integral equations. Doklady Akad. Nauk SSSR (N.S.) 73, 1125-1128 (1950). (Russian) (Atkinson) 12-339.
- Hermitian-positive kernels in homogeneous spaces. II. Ukrain. Mat. Zhurnal 2, no. 1, 10-59 (1950). (Russian) (Mackey) 12-719; 13-1139.
- On an application of the fixed point principle in the theory of linear transformations of spaces with an indefinite metric. Uspehi Matem. Nauk (N.S.) 5, no. 2(36), 180-190 (1950). (Russian) (Hewitt) 14-56.
- The ideas of P. L. Čebyšev and A. A. Markov in the theory of limiting values of integrals and their further development. Uspehi Matem. Nauk (N.S.) 6, no. 4(44), 3-120 (1951). (Russian) (Boas) 13-445.
- On certain problems on the maximum and minimum of characteristic values and on the Lyapunov zones of stability. Akad. Nauk SSSR. Prikl. Mat. Meh. 15, 323-348 (1951). (Russian) (Atkinson) 13-348.
- Solution of the inverse Sturm-Liouville problem. Doklady Akad. Nauk SSSR (N.S.) 76, 21-24 (1951). (Russian) (Atkinson) 12-613.
- Determination of the density of a nonhomogeneous symmetric cord by its frequency spectrum. Doklady Akad. Nauk SSSR (N.S.) 76, 345-348 (1951). (Russian) (Levinson) 13-43.
- On the theory of entire matrix functions of exponential type. Ukrain. Mat. Zhurnal 3, 164-173 (1951). (Russian) (Boas) 14-981.
- On the application of an algebraic proposition in the theory of matrices of monodromy. Uspehi Matem. Nauk (N.S.) 6, no. 1(41), 171-177 (1951). (Russian) (Massera) 14-277.
- On some new problems of the theory of oscillations of Sturmian systems. Akad. Nauk SSSR. Prikl. Mat. Meh. 16, 555-568 (1952). (Russian) (Atkinson) 14-650.
- Inverse problems for a nonhomogeneous cord. Doklady Akad. Nauk SSSR (N.S.) 82, 669-672 (1952). (Russian) (Atkinson) 14-649.
- On a generalization of investigations of Stieltjes. Doklady Akad. Nauk SSSR (N.S.) 87, 881-884 (1952). (Russian) (Atkinson) 14-868.
- On the indeterminate case of the Sturm-Liouville boundary problem in the interval $(0, \infty)$. Izvestiya Akad. Nauk SSSR. Ser. Mat. 16, 293-324 (1952). (Russian) (Levinson) 14-558.
- On the transfer function of a one-dimensional boundary problem of second order. Doklady Akad. Nauk SSSR (N.S.) 88, 405-408 (1953). (Russian) (Coddington) 15-316.
- An analogue of the Čebyšev-Markov inequalities in a one-dimensional boundary problem. Doklady Akad. Nauk SSSR (N.S.) 89, 5-8 (1953). (Russian) (Coddington) 15-316.
- On some cases of effective determination of the density of an inhomogeneous cord from its spectral function. Doklady Akad. Nauk SSSR (N.S.) 93, 617-620 (1953). (Russian) (Coddington) 15-736.
- On inverse problems of the theory of filters and λ -zones of stability. Doklady Akad. Nauk SSSR (N.S.) 93, 767-770 (1953). (Russian) (Levinson) 15-874.
- On the trace formula in perturbation theory. Mat. Sbornik N. S. 33(75), 597-626 (1953). (Russian) (D. C. Kleenecke) 15-720.
- On a basic approximation problem of the theory of extrapolation and filtration of stationary random processes. Doklady Akad. Nauk SSSR (N.S.) 94, 13-16 (1954). (Russian) (Levinson) 16-53.

- On a method of effective solution of an inverse boundary problem. Doklady Akad. Nauk SSSR (N.S.) 94, 987-990 (1954). (Russian) (Levinson) 16-38.
- On integral equations generating differential equations of 2nd order. Doklady Akad. Nauk SSSR (N.S.) 97, 21-24 (1954). (Russian) (Levinson) 16-372; 17-1436.
- On the inverse problem of filter theory and the λ -zone of stability. Translated by Morris D. Friedman, 2 Pine St., West Concord, Mass., 1955. 7 pp. 17-484.
- On a new method of solving linear integral equations of the first and second kinds. Translated by Morris D. Friedman, 2 Pine St., West Concord, Mass., 1955. 6 pp. 17-497.
- The basic propositions of the theory of λ -zones of stability of a canonical system of linear differential equations with periodic coefficients. Pamyati Aleksandra Aleksandrovicha Andronova [In memory of Aleksandr Aleksandrovich Andronov], pp. 413-498. Izdat. Akad. Nauk SSSR, Moscow, 1955. (N. Levinson) 17-738.
- On some cases of the effective determination of the density of a nonuniform string by its spectral function. Translated by Morris D. Friedman, 2 Pine St., West Concord, Mass., 1955. 7 pp. 17-740.
- On an application of the fixed-point principle in the theory of linear transformations of spaces with an indefinite metric. Amer. Math. Soc. Transl. (2) 1 (1955), 27-35. 17-514.
- On certain problems on the maximum and minimum of characteristic values and on Lyapunov zones of stability. Amer. Math. Soc. Transl. (2) 1 (1955), 163-187. 17-484.
- On a new method of solution of linear integral equations of first and second kinds. Dokl. Akad. Nauk SSSR (N.S.) 100, 413-416 (1955). (Russian) (Atkinson) 17-375.
- On determination of the potential of a particle from its S-function. Dokl. Akad. Nauk SSSR (N.S.) 105 (1955), 433-436. (Russian) (N. Levinson) 17-1210.
- Continuous analogues of propositions on polynomials orthogonal on the unit circle. Dokl. Akad. Nauk SSSR (N.S.) 105 (1955), 637-640. (Russian) (F. V. Atkinson) 18-291.
- On criteria of stable boundedness of solutions of periodic canonical systems. Prikl. Mat. Meh. 19 (1955), 641-680. (Russian) (N. Levinson) 17-1088.
- On the theory of accelerants and S-matrices of canonical differential systems. Dokl. Akad. Nauk SSSR (N.S.) 111 (1956), 1167-1170. (Russian) (N. Levinson) 19-277.
- On a continual analogue of a Christoffel formula from the theory of orthogonal polynomials. Dokl. Akad. Nauk SSSR (N.S.) 113 (1957), 970-973. (Russian) (F. V. Atkinson) 19-961.
- On the characteristic function $A(\lambda)$ of a linear canonical system of differential equations of second order with periodic coefficients. Prikl. Mat. Meh. 21 (1957), 320-329. (Russian) (J. L. Massera) 20#1018.
- On Bari bases of a Hilbert space. Uspehi Mat. Nauk (N.S.) 12 (1957), no. 3(75), 333-341. (Russian) (M. Katětov) 19-1184.
- et Finkelstein, G.
- Sur les fonctions de Green complètement non-négatives des opérateurs différentiels ordinaires. C. R. (Doklady) Acad. Sci. URSS (N.S.) 24, 220-223 (1939). (W. M. Whyburn) 2-52.
- and Krasnosel'skiĭ, M. A.
- Fundamental theorems on the extension of Hermitian operators and certain of their applications to the theory of orthogonal polynomials and the problem of moments. Uspehi Matem. Nauk (N.S.) 2, no. 3(19), 60-106 (1947). (Russian) (Nikodym) 10-198.
- Stability of the index of an unbounded operator. Mat. Sbornik N. S. 30(72), 219-224 (1952). (Russian) (Atkinson) 13-849.
- and Krein, Selim.
- On an inner characteristic of the set of all continuous functions defined on a bicomact Hausdorff space. C. R. (Doklady) Acad. Sci. URSS (N.S.) 27, 427-430 (1940). (Bohnenblust) 2-222.
- Sur l'espace des fonctions continues définies sur un bicomact de Hausdorff et ses sous espaces semiordonnés. Rec. Math. [Mat. Sbornik] N. S. 13(55), 1-38 (1943). (French. Russian summary) (Dunford) 6-276.
- and Levin, B.
- On entire almost periodic functions of exponential type. Doklady Akad. Nauk SSSR (N.S.) 64, 285-287 (1949). (Russian) (Tornehave) 10-449.
- and Lewitan, B.
- On some minimum-problems in the class of Stepanoff almost periodic functions. Comm. Inst. Sci. Math. Méc. Univ. Kharkoff [Zapiski Inst. Mat. Mech.] (4) 17, 111-124 (1940). (English. Russian summary) (Cameron) 2-362.
- and Milman, D.
- On extreme points of regular convex sets. Studia Math. 9, 133-138 (1940). (English. Ukrainian summary) (Wehausen) 3-90.

 Krzywoblocki, Zbigniew. (v. Krzywoblocki, Zbigniew; M. Z. V.; M. Z. E.; M. Z.) (See also Gustafson, W. A.)
 The problem of wing oscillation. The influence of material and size on flexural and torsional frequencies. *Aircraft Engrg.* 15, 234-237 (1943). (P. W. Ketchum) 5-81.
 A local maximum property of the fourth coefficient of schlicht functions. *Duke Math. J.* 14, 109-128 (1947). (Spencer) 8-508.
 On the so-called principle of least work method. *J. Franklin Inst.* 243, 187-204 (1947). (Hildebrand) 9-164.
 On the two-dimensional steady flow of a compressible viscous fluid far behind a solid symmetrical body. *J. Franklin Inst.* 243, 471-486 (1947). (Mitchell) 9-117.
 On the so-called principle of least work method. *II. J. Franklin Inst.* 244, 465-469 (1947). (Hildebrand) 10-80.
 A general approximation method in the theory of plates of small deflection. *Quart. Appl. Math.* 6, 31-52 (1948). (Lee) 10-651.
 On the two-dimensional steady turbulent flow of a compressible fluid far behind a solid symmetrical body. *I. Momentum transfer theory. J. Franklin Inst.* 247, 33-61 (1949). (Hayes) 11-478.
 On the two-dimensional steady turbulent flow of a compressible fluid far behind a solid symmetrical body. *II. Vorticity transfer theory. J. Franklin Inst.* 247, 137-154 (1949). (Hayes) 11-478.
 On certain cases of simple exact solutions of flow equations in a compressible imperfectly viscous fluid with particular conditions. *Math. Mag.* 22, 111-123 (1949). (Kuo) 10-491.
 On steady, laminar, round jets in compressible viscous gases far behind the mouth. *Österreich. Ing.-Arch.* 3, 373-383 (1949). (Kuo) 11-221.
 On the boundary layer at a plane or tube in a periodically oscillating stream of compressible viscous fluid. *Österreich. Ing.-Arch.* 3, 404-421 (1949). (Kuo) 11-478.
 A general approximation method in the theory of plates of small deflection. *Quart. Appl. Math.* 7, 236 (1949). (Lee) 10-651.
 On steady, laminar two-dimensional jets in compressible viscous gases far behind the slit. *Quart. Appl. Math.* 7, 313-323 (1949). (Kuo) 11-221; 12-1001.
- On the limiting lines in inviscid rotational and viscous flows. *Bull. Calcutta Math. Soc.* 42, 153-171 (1950). (Lighthill) 13-297.
 On the asymptotic expansion in three-dimensional compressible viscous flow. *J. Franklin Inst.* 250, 213-217 (1950). (Lighthill) 13-179.
 On the fundamentals of kinematics of statistical theories of turbulence in compressible fluids. *Proceedings of the Midwestern Conference on Fluid Dynamics*, 1950, pp. 66-80. *J. W. Edwards*, Ann Arbor, Michigan, 1951. (Chandrasekhar) 14-106.
 On the transformation of Chaplygin's equation into Fuchs-Frobenius normal form. *J. Phys. Soc. Japan* 6, 452-453 (1951). (Davis) 13-701.
 On the so-called principle of least work method. *Österreich. Ing.-Arch.* 5, 81-96 (1951). (Hay) 13-406.
 On complete forms in a turbulent three-dimensional flow of compressible viscous fluid. *Österreich. Ing.-Arch.* 5, 129-137 (1951). 13-178.
 On the generalized fundamental equations of isotropic turbulence in compressible fluids and in hypersonic. *Proceedings of the First U. S. National Congress of Applied Mechanics*, Chicago, 1951, pp. 827-835. *The American Society of Mechanical Engineers*, New York, N. Y., 1952. (Chandrasekhar) 14-919.
 On the equations of isotropic turbulence in magneto-hydrodynamics of compressible medium. *Acta Physica Austriaca* 6, 157-166 (1952). (Chandrasekhar) 14-596.
 On the invariants in the turbulence in compressible viscous fluids. *J. Franklin Inst.* 254, 317-322 (1952). (Chandrasekhar) 14-596.
 On the equations of the decay of isotropic turbulence in compressible fluid. *J. Phys. Soc. Japan* 7, 299-300 (1952). (Chandrasekhar) 14-596.
 On the equations of the decay of isotropic turbulence in magneto-hydrodynamics. *J. Phys. Soc. Japan* 7, 511-512 (1952). (Chandrasekhar) 14-596.
 Bergman's linear integral operator method in the theory of compressible fluid flow. *Österreich. Ing.-Arch.* 6, 330-360 (1952). 14-510.
 On the decay of turbulence in compressible fluids in terms of vorticity. *Proceedings of the Third Midwestern Conference on Fluid Mechanics*, University of Minnesota, March 23, 24, and 25, 1953, pp. 413-425. *University of Minnesota*, Minneapolis, Minn., 1953. (Bass) 15-365.
 On the fundamentals of locally isotropic turbulence in magneto-hydrodynamics of a compressible medium. *Acta Physica Austriaca* 6, 250-256 (1953). (Chandrasekhar) 14-813.
 On the stability of Bénard-Kármán vortex street in compressible fluids. *I. Acta Physica Austriaca* 7, 283-298 (1953). (Gilbarg) 15-479.
 On the general theory of downwash behind a finite wing in supersonic range. *Bull. Calcutta Math. Soc.* 45, 21-40 (1953). (A. Robinson) 16-86.
 On the extension of Friedrichs' theorem on non-vanishing of the Jacobian to rotational inviscid isentropic and viscous flows. *Bull. Soc. Math. Grèce* 27, 68-84 (1953). (Gilbarg) 15-265.
 On vortex-equation in isentropic flow. *J. Phys. Soc. Japan* 8, 387-389 (1953). (Gerber) 15-73.
 The "independent scalars" in homogeneous turbulence in compressible media. *J. Phys. Soc. Japan* 8, 745-747 (1953). (Bass) 15-573.
 Bergman's linear integral operator method in the theory of compressible fluid flow. *B. Super- and transonic flow. Österreich. Ing.-Arch.* 7, 336-370 (1953). 15-367.
 On the so-called principle of least work. *Proceedings of the First Midwestern Conference on Solid Mechanics*, April, 1953, pp. 43-48. *The Engineering Experiment Station*, University of Illinois, Urbana, Ill., 1954. 15-841.
 On the stability of Bénard-Kármán vortex street in compressible fluids. *II. Acta Physica Austriaca* 8, 370-387 (1954). (Gilbarg) 16-413.

- On the variation of kinetic energy and internal energy of a viscous compressible fluid flow in a two-dimensional domain. *Bull. Soc. Math. Grèce* 28, 37-50 (1954). (J. Kampé de Fériet) 17-680.

Kulakoff, A. A.

On regular representation of an abstract group. Memorial volume dedicated to D. A. Grave [Sbornik posvjashchenii pamjati D. A. Grave], Moscow, 1940, pp. 104-109. (Russian) 2-126.

Über die reguläre Darstellung einer abstrakten Gruppe. V. Rec. Math. [Mat. Sbornik] N.S. 8(50), 69-72 (1940). (German. Russian summary) (Frame) 2-126.

Einige Bemerkungen zur Arbeit: "Form of the number of the subgroups of a prime power group" von G. A. Miller. Rec. Math. [Mat. Sbornik] N.S. 8(50), 73-75 (1940). (German. Russian summary) (Frame) 2-124.

Sur les nombres de la forme $a^{m_1} b^{m_2}$. C. R. (Doklady) Acad. Sci. URSS (N.S.) 40, 43-45 (1943). (Niven) 6-36.

Sur un critérium de non-simplicité d'un groupe fini. C. R. (Doklady) Acad. Sci. URSS (N.S.) 40, 3-4 (1943). (Frame) 6-40.

Sur les groupes d'ordre impair. C. R. (Doklady) Acad. Sci. URSS (N.S.) 53, 683-685 (1946). (Frame) 8-436.

Sur la représentation régulière d'un p-groupe. C. R. (Doklady) Acad. Sci. URSS (N.S.) 54, 113-116 (1946). (Tuan) 8-436.

Kulakov, I. J.

Über die Transformationsfunktionen von Teilchen mit willkürlichem Spin. C. R. Acad. Bulgare Sci. 10 (1957), 105-108. (Russian. German summary) 19-613.

Kulaschko, B.

Zur Verbesserung der Hypothesen für die Dreiecksflächen bei der Parabel. Astr. Nachr. 279, 213-216 (1951). (Brouwer) 13-498.

Kulczycki, Stefan.

Geometria nieeuklidesowa. [Non-euclidean geometry.] Państwowe Wydawnictwo Naukowe, Warszawa, 1956. 189 pp. (S. H. Gould) 18-146.

Kulebakin, V. S.

On the application of the principle of absolute invariance to real physical systems. Doklady Akad. Nauk SSSR (N.S.) 60, 231-234 (1948). (Russian) (Lefschetz) 9-489.

On the behavior of continuously perturbed automatized linear systems. Doklady Akad. Nauk SSSR (N.S.) 68, 855-858 (1949). (Russian) (Lefschetz) 11-177.

Kulik, J. Ph.

---- et L. Poletti; R. J. Porter.

Liste des nombres premiers du onzième million (plus précisément de 10,006,741 à 10,999,997) d'après les tables manuscrites. Imprimerie "Werto," Amsterdam, 1951. ii + 25 pp. (Lehmer) 13-625.

Kulik, Stephen.

Linear difference equations with boundary conditions. Proc. London Math. Soc. (2) 53, 331-344 (1951). (Guenther) 13-246.

A method for approximating the zeros of analytic functions. Duke Math. J. 24 (1957), 137-141. (M. Marden) 19-257.

On the Laguerre method for separating the roots of algebraic equations. Proc. Amer. Math. Soc. 8 (1957), 841-843. (M. Marden) 19-833.

A method of approximating the complex roots of equations. Pacific J. Math. 8 (1958), 277-281. (A. S. Householder) 20#3629.

Kulikoff, L. See Kulikov, L. Ya.

Kulikov, D. K.

Application of calculating machines to the multiplication of trigonometric series. Akad. Nauk SSSR. Byull. Inst. Teoret. Astr. 4, no. 6(59), 283-286 (1949). (Russian) (Church) 12-537.

Formulas and tables for the differential correction of parabolic orbits. Akad. Nauk SSSR. Byull. Inst. Teoret. Astr. 4, 451-487 (1951). (Russian) 13-282.

Mechanization of astronomical computations. Akad. Nauk SSSR. Byull. Inst. Teoret. Astr. 5, 512-545 (1953). (Russian) 15-902.

Application of computing machines to the calculation of heliocentric coordinates of the major planets. Byull. Inst. Teoret. Astr. 6 (1955), 166-191. (Russian) 19-183.

On subtabulation of tables on computing machines. Byull. Inst. Teoret. Astr. 6 (1955), 192-201. (Russian) 19-183.

Kulikov, L. Ya. (= Kulikoff, L.; Koulikoff, L.)

Zur Theorie der Abelschen Gruppen von beliebiger Mächtigkeit. Rec. Math. [Mat. Sbornik] N.S. 9(51), 165-181 (1941). (Russian. German summary) (Knebelman) 2-308.

On the theory of Abelian groups of arbitrary power. Rec. Math. [Mat. Sbornik] N.S. 16(58), 129-162 (1945). (Russian. English summary) (Hurewicz) 8-252.

Generalized primary groups. I. Trudy Moskov. Mat. Obšč. 1, 247-326 (1952). (Russian) (Kaplansky) 14-132.

On direct decompositions of groups. Ukrain. Mat. Žurnal 4, 230-275, 347-372 (1952). (Russian) (Kaplansky) 15-396.

Generalized primary groups. II. Trudy Moskov. Mat. Obšč. 2, 85-167 (1953). (Russian) (Kaplansky) 15-9.

On direct decompositions of groups. Amer. Math. Soc. Transl. (2) 2 (1956), 23-87. 17-824.

On direct decompositions of a mixed abelian group. Publ. Math. Debrecen 4 (1956), 512-516. (Russian) (I. Kaplansky) 18-280.

Kulikov, N. K.

Approximate determination of the period of free oscillations of a nonlinear system with one degree of freedom. Akad. Nauk SSSR. Inženernyĭ Sbornik 13, 187-189 (1952). (Russian) (Golomb) 14-693.

On the determination of the limit of the general solution of a nonlinear differential equation of the first order. Akad. Nauk SSSR. Prikl. Mat. Meh. 16, 729-734 (1952). (Russian) (Lefschetz) 14-472.

Kulikovskii, A. A.

Comparison of the theories of tube and semiconductor amplifiers and their possible generalization. Translated by Morris D. Friedman, 572 California St., Newtonville 60, Mass., 1956. 13 pp. 18-258.

Kulikovskii, A. G. (=Kulikovskiy)

On the decay of homogeneous isotropic magneto-hydrodynamic turbulence in an incompressible fluid. Prikl. Mat. Meh. 19 (1955), 551-556. (Russian) (S. Chandrasekhar) 17-563.

On Riemannian waves in magnetic hydrodynamics. Dokl. Akad. Nauk SSSR 121 (1958), 987-990. (Russian) (H. Cabannes) 20#5632.

van der Kulk, W. (=v. d. Kulk, W.) (See also Schouten, J. A.)

Wstęp do teorii mnogości i topologii. [Introduction to the theory of sets and topology.] *Państwowe Wydawnictwo Naukowe*, Warszawa 1955. 218 pp. (S. Eilenberg) 17-66.

Sur l'espace des fonctions partielles. *Ann. Mat. Pura Appl.* (4) 40 (1955), 61-67. (Ky Fan) 17-650.

Un théorème sur les espaces compacts et ses applications à l'étude de la connexité locale. *Bull. Acad. Polon. Sci. Cl. III.* 3, 75-80 (1955). (R. L. Wilder) 16-1139.

The scientific activity of the Mathematical Institute of the Polish Academy of Sciences. *Uspehi Mat. Nauk* (N. S.) 10, no. 3 (65), 217-221 (1955). (Russian) 17-2.

On a characterisation of connected domains in locally connected spaces. *Bull. Acad. Polon. Sci. Cl. III.* 4 (1956), 211-214. (Ky Fan) 17-1230.

Sur une méthode de métrisation complète de certains espaces d'ensembles compacts. *Fund. Math.* 43 (1956), 114-138. (E. A. Michael) 18-58.

Quelques propriétés de l'espace des ensembles LC^n . *Bull. Acad. Polon. Sci. Cl. III.* 5 (1957), 967-974, LXXXI. (Russian summary) (J. Dugundji) 20-1293.

Sur quelques invariants topologiques dans l'espace euclidien. *J. Math. Pures Appl.* (9) 36 (1957), 191-200. (J. C. Moore) 19-970.

Sur le rôle des espaces abstraits en topologie moderne.

Schr. Forschungsinst. Math. 1 (1957), 27-32, 18-916.

Topologie. Vol. I. 4ème éd. *Monografie Matematyczne*, Tom 20. Państwowe Wydawnictwo Naukowe, Warsaw, 1958. xiii + 494 pp. 19-873.

Sur l'extension de la notion de fonction rationnelle à l'espace euclidien n -dimensionnel. *Bull. Acad. Polon. Sci. Sér. Sci. Math. Astr. Phys.* 6 (1958), 281-287. (E. H. Spanier) 20-3532.

---- et Mostowski, Andrzej.

Sur un problème de la théorie des groupes et son rapport à la topologie. *Colloquium Math.* 2 (1951), 212-215 (1952). (Tits) 14-131.

Teoria Mnogości. [Theory of sets.] *Monografie Matematyczne*, Tom XXVII. Polskie Towarzystwo Matematyczne, Warszawa-Wrocław, 1952. ix + 311 pp. (Ulam) 14-960.

---- et Steinhaus, H.

Une application géométrique du théorème de Brouwer sur les points invariants. *Bull. Acad. Polon. Sci. Cl. III.* 1, 83-86 (1953). (Begle) 15-336.

---- et Zarankiewicz, C.

Sur un problème concernant les coupures des régions par des continus. *Fund. Math.* 39 (1952), 15-24 (1953). (G. T. Whyburn) 14-1109.

Kuratowski, K. See Kuratowski, Kazimierz.

Kurbakin, G. P.

Determination by the methods of hydrodynamics of the annual course of the temperature of air on sea level. *Izv. Akad. Nauk SSSR. Ser. Geofiz.* 1957, 228-243. (Russian) (M. Kiveliovitch) 19-928.

Kurbatov, J. D.

---- and Mann, H. B.

Correction of G-M counter data. *Phys. Rev.* (2) 68, 40-43 (1945). (Feller) 7-18.

Kurbatov, V. A.

On the monodromy group of an algebraic function. *Mat. Sbornik N. S.* 25 (67), 51-94 (1949). (Russian) (Ritt) 11-85.

On equations of prime degree. *Mat. Sb. N. S.* 43 (85) (1957), 349-366. (Russian) (K. A. Hirsch) 20-1665.

Kurcveř, J., Yaroslav. See Kurzweil, J.

Kurdelaide, D. F. (See also Ivanenko, D.)

Nonlinear scattering in electrodynamics and mesodynamics. *Vestnik Moskov. Univ.* 9, no. 8, 81-90 (1954). (Russian) (Dyson) 17-113.

Kurdumov, A. A. (=Kurdyumov, A. A.)

Solution by polynomials of the plane problem of the theory of elasticity for rectangular anisotropic plates. *Appl. Math. Mech.* [Akad. Nauk SSSR. Prikl. Mat. Mech.] 9, 339-342 (1945). (Russian, English summary) (Sokolnikoff) 7-351.

On the theory of ship hull design. *C. R. (Doklady) Acad. Sci. URSS* (N. S.) 55, 91-94 (1947). (A. B. Brown) 8-535.

Kurdyumov, A. A. See Kurdumov.

Kurepa, Djuro. See Kurepa, Đuro.

Kurepa, Đuro. (=Georges; Georg; G.; Djuro; Gjuro)

Une propriété des familles d'ensembles bien ordonnés

linéaires. *Studia Math.* 9, 23-42 (1940). (French. Ukrainian summary) (Tukey) 3-225.

Transformations monotones des ensembles partiellement ordonnés. *Revista Ci.*, Lima 42, 827-846 (1940); 43, 483-500 (1941). (Tukey) 3-225.

Über eine Eigenschaft von Systemen linearer wohlgeordneter Mengen. *Math. Ann.* 118, 578-587 (1942). (A. Rosenthal) 6-42.

A propos d'une généralisation de la notion d'ensembles bien ordonnés. *Acta Math.* 75, 139-150 (1943). (Rosenthal) 7-195.

Le problème de Souslin et les espaces abstraits. *Revista Ci.*, Lima 47, 457-488 (1945). (J. Todd) 7-420.

Sur le continu mathématique. *Hrvatsko Prirodoslovno Društvo. Glasnik Mat.-Fiz. Astr. Ser. II.* 1, 112-125 (1946). (Croatian. French summary) 10-22.

Ensembles de suites dénombrables d'entiers (contribution au problème de Suslin). *Bull. Acad. Sci. URSS. Sér. Math.* [Izvestia Akad. Nauk SSSR] 11, 59-74 (1947). (French and Russian) (J. Todd) 8-505.

L'hypothèse du continu et le problème de Souslin. Acad. Serbe Sci. Publ. Inst. Math. 2, 26-36 (1948). (French. Serbian summary) (John Todd) 10-359.

Sur les ensembles ordonnés dénombrables. Hrvatsko Prirodoslovno Društvo. Glasnik Mat.-Fiz. Astr. Ser. II. 3, 145-151 (1948). (French. Croatian summary) (John Todd) 10-437.

The concept of a binary relation. Equivalence relation. Order relations. Bull. Soc. Math. Phys. Serbie 1, no. 3-4, 53-58 (1949). (Croatian) (Feller) 12-4.

Sur la définition et l'ordination de l'ensemble des nombres complexes. Acad. Serbe Sci. Publ. Inst. Math. 3, 89-99 (1950). (Hewitt) 12-581.

Ensembles partiellement ordonnés et ensembles partiellement bien ordonnés. Acad. Serbe Sci. Publ. Inst. Math. 3, 119-125 (1950). (Jónsson) 12-683.

Sur une définition et une ordination des nombres complexes. Bull. Soc. Math. Phys. Serbie 2, nos. 1-2, 1-18 (1950). (Serbo-Croatian. French summary) (Hewitt) 12-581.

Démonstration du principe de l'induction totale. C. R. Acad. Sci. Paris 230, 703-705 (1950). (McKinsey) 11-412.

Sur la notion de processus (fonction générale). C. R. Acad. Sci. Paris 231, 316-318 (1950). (Birkhoff) 12-154.

La condition de Souslin et une propriété caractéristique des nombres réels. C. R. Acad. Sci. Paris 231, 1113-1114 (1950). (J. Todd) 12-397.

The problem of measure and monotonic mappings of partially ordered sets. Rad Jugoslav. Akad. Znan. Umjet. Odjel Mat. Fiz. Tehn. Nauke 277, 229-237 (1950). (Serbo-Croatian) (Hewitt) 14-960.

Proof of the principle of total induction. Rad Jugoslav. Akad. Znan. Umjet. Odjel Mat. Fiz. Tehn. Nauke 277, 238-248 (1950). (Serbo-Croatian) (Hewitt) 14-938.

Theorija skupova. [The Theory of Sets]. Školska Knjiga, Zagreb, 1951. xix + 443 pp. (Feller) 12-683.

Problématique des ensembles partiellement ordonnés. Premier Congrès des Mathématiciens et Physiciens de la R. P. F. Y., 1949. Vol. II, Communications et Exposés Scientifiques, pp. 7-22. Naučna Knjiga, Belgrade, 1951. (Serbo-Croatian. French summary) (Hewitt) 13-542.

Über die Prinzipien der Induktion. Srpska Akad. Nauka. Zbornik Radova, Knj. 7. Matematički Institut, Knj. 1, 109-118 (1951). (Serbo-Croatian. German summary) 13-311.

Sur une propriété caractéristique du continu linéaire et le problème de Suslin. Acad. Serbe Sci. Publ. Inst. Math. 4, 97-108 (1952). (Sherman) 14-255.

Remarque sur le produit de deux nombres complexes du même signe. Acad. Serbe Sci. Publ. Inst. Math. 4, 176-177 (1952). (Hewitt) 14-237.

Sur la relation d'inclusion et l'axiome de choix de Zermelo. Bull. Soc. Math. France 80, 225-232 (1952). (Beth) 15-17.

Le problème de la mesure et les transformations monotones des ensembles partiellement ordonnés. Bull. Internat. Acad. Yougoslave Sci. Beaux-Arts (N.S.) 6 (1952), 91-96. 18-106.

The principle of complete induction. Bull. Internat. Acad. Yougoslave Sci. Beaux-Arts (N.S.) 6 (1952), 97-103. 18-103.

On a definition and notation of matrices. On a kind of switch matrices. Bull. Soc. Math. Phys. Serbie 4, nos. 1-2, 1-7 (1952). (Serbo-Croatian summary) (Bagemihl) 14-146.

Deux conséquences équivalentes, relatives aux nombres ordinaux, de la bonne ordination du continu linéaire. C. R. Acad. Sci. Paris 234, 175-177 (1952). (Bagemihl) 13-632.

On a characteristic property of finite sets. Pacific J. Math. 2, 323-326 (1952). (Gustin) 14-255.

Rational numbers as ordered triplets of natural integers. Hrvatsko Prirodoslovno Društvo. Glasnik Mat.-Fiz. Astr. Ser. II. 7, 133-139 (1952). (Serbo-Croatian summary) (Birkhoff) 14-612.

On some coupled operators in order sets. Bull. Soc. Math. Phys. Serbie 5, no. 3-4, 15-21 (1953). (Serbo-Croatian summary) (Ginsburg) 15-859.

Sur les polytopes. Bull. Soc. Math. Phys. Serbie 5, no. 3-4, 23-31 (1953). (Serbo-Croatian summary) (Ginsburg) 16-227.

Über die Binomialkoeffizienten. Bull. Soc. Math. Phys. Serbie 5, no. 3-4, 33-44 (1953). (Serbo-Croatian summary) (Dirac) 16-13.

Sur une hypothèse de la théorie des ensembles. C. R. Acad. Sci. Paris 236, 564-565 (1953). (Viola) 15-409.

Sur un principe de la théorie des espaces abstraits. C. R. Acad. Sci. Paris 236, 655-657 (1953). (Viola) 15-409.

Sur les correspondances multivoques. C. R. Acad. Sci. Paris 237, 1133-1135 (1953). (R. de Possel) 17-467.

Real and ordinal numbers as sets of rational numbers. Hrvatsko Prirodoslovno Društvo. Glasnik Mat.-Fiz. Astr. Ser. II. 8, 270-279 (1953). (Serbo-Croatian summary) (Ginsburg) 15-943.

Über das Auswahlaxiom. Math. Ann. 126, 381-384 (1953). (Ginsburg) 15-410.

On real functions on the family of ordered sets of rational numbers. Rad Jugoslav. Akad. Znan. Umjet. Odjel Mat. Fiz. Tehn. Nauke 296, 85-93 (1953). (Serbo-Croatian) 16-1006.

Remarks on abstract spaces. Rad Jugoslav. Akad. Znan. Umjet. Odjel Mat. Fiz. Tehn. Nauke 296, 95-103 (1953). (Serbo-Croatian) 16-1042.

On factorials of finite and infinite numbers. Rad Jugoslav. Akad. Znan. Umjet. Odjel Mat. Fiz. Tehn. Nauke 296, 105-122 (1953). (Serbo-Croatian) 16-1006.

On reflexive symmetric relations and graphs. Slovenska Akad. Znan. Umet. Razred Mat. Fiz. Tehn. Vede. Ser. A. 4, no. 4, 65-92 (1953). (Serbo-Croatian and English) (S. Ginsburg) 17-135.

Sur la relation d'inclusion et l'axiome de choix de Zermelo. Applications scientifiques de la logique mathématique (Actes du 2^e Colloque International de Logique Mathématique, Paris, 1952), pp. 95-96. Gauthier-Villars, Paris; E. Nauwelaerts, Louvain, 1954. 16-227.

Sur les fonctions réelles dans la famille des ensembles bien ordonnés de nombres rationnels. Bull. Internat. Acad. Yougoslave. Cl. Sci. Math. Phys. Tech. (N.S.) 12, 35-42 (1954). (S. Ginsburg) 16-1006.

Some remarks on abstract spaces. Bull. Internat. Acad. Yougoslave. Cl. Sci. Math. Phys. Tech. (N.S.) 12, 43-50 (1954). (F. B. Jones) 16-1042.

Über die Faktoriellen endlicher und unendlicher Zahlen. Bull. Internat. Acad. Yougoslave. Cl. Sci. Math. Phys. Tech. (N.S.) 12, 51-64 (1954). (S. Ginsburg) 16-1006.

Une généralisation des matrices. C. R. Acad. Sci. Paris 239, 19-20 (1954). (Day) 15-943.

Some principles of induction. Acad. Serbe Sci. Publ. Inst. Math. 8 (1955), 1-12. (L. Gillman) 17-1065.

Généralisation de l'opération de Suslin, de celle d'Alexandrov et de la formule de Morgan. Bull. Internat. Acad. Yougoslave. Cl. Sci. Math. Phys. Tech. 5 (1955), 97-107. (F. Bagemihl) 20#4498.

Sur une classe de continus ordonnés. C. R. Acad. Sci. Paris 240, 2283-2284 (1955). (S. Ginsburg) 16-1006.

Le rôle des mathématiques et du mathématicien à l'époque contemporaine. Enseignement Math. (2) 1 (1955), 93-111. 17-697.

On the symmetry. Hrvatsko Prirod. Društvo. Glasnik Mat.-Fiz. Astr. Ser. II. 10 (1955), 239-254. (Serbo-Croatian summary) (F. A. Behrend) 19-1071.

Quelques aspects de l'importance de la théorie des ensembles. Hrvatsko Prirod. Društvo. Glasnik Mat.-Fiz. Astr. Ser. II. 10 (1955), 255-257. (Serbo-Croatian summary) 17-1189.

Still about induction principles. Rad Jugoslav. Akad. Znan. Umjet. Odjel Mat. Fiz. Tehn. Nauke 302 (1955), 77-86 (Serbo-Croatian. English summary) (G. Kreisel) 18-270.

The role of mathematics and mathematician at present time. Proceedings of the International Congress of Mathematicians, 1954, Amsterdam, vol. III, pp. 305-317. Erven P. Noordhoff N. V., Groningen; North-Holland Publishing Co., Amsterdam, 1956. 18-982.

- On Čebyšev's formula for multiple integrals. *Doklady Akad. Nauk SSSR (N.S.)* 61, 437-439 (1948). (Russian) (Thielman) 10-22.
- and Natanson, I. P.
On strong convergence of Lagrange polynomial of interpolation. *Leningrad State Univ. Annals [Uchenye Zapiski]* Math. Ser. 6, 81-89 (1939). (Russian) (Zygmund) 2-196.
- Kuz'mina, A. L.
On a class of quasi-analytic functions of several variables. *Doklady Akad. Nauk SSSR (N.S.)* 80, 853-856 (1951). (Russian) (Mandelbrojt) 14-38.
- On series of orthogonal polynomials. *Ukrain. Mat. Ž.* 6, 363-366 (1954). (Russian) (W. H. J. Fuchs) 16-1093.
- On the asymptotic representation of polynomials orthogonal on the unit circle. *Dokl. Akad. Nauk SSSR (N.S.)* 107 (1956), 793-795. (Russian) (U. W. Hochstrasser) 19-137.

Kuz'mina, G. V.

Determination of the least radius of univalence for a certain class of analytical functions. Dokl. Akad. Nauk SSSR. (N. S.) 117 (1957), 751-754. (Russian) (V. Linis) 20#977.

Kuz'minok, G. K. See Gutenmaher, L. I.; Korol'kov, N. V.

Kuznecov, A. I. (=Kuznetsov, A. I.)

The problem of torsion and plane strain of non-homogeneous plastic bodies. Arch. Mech. Stos. 10 (1958), 447-462. (Polish and Russian summaries) (P. G. Hodge, Jr.) 20#6856.

Plane deformation of non-homogeneous plastic bodies.

Vestnik Leningrad. Univ. 13 (1958), no. 13, 112-131. (Russian. English summary) (J. Nowinski) 20#4978.

Kuznecov, A. V.

On primitive recursive-functions of large oscillation. Doklady Akad. Nauk SSSR (N. S.) 71, 233-236 (1950). (Russian) (Curry) 11-635.

---- and Trahtenbrot, B. A.

Investigation of partially recursive operators by means of the theory of Baire space. Dokl. Akad. Nauk SSSR (N. S.) 105 (1955), 897-900. (Russian) (E. J. Cogan) 17-1039.

Kuznecov, B. G.

Absolute space in Euler's mechanics. Akad. Nauk SSSR. Trudy Inst. Istorii Estestvoznaniya 1, 347-371 (1947). (Russian) 11-572.

The teaching of Newton on relativity and absolute motion. Izvestiya Akad. Nauk SSSR. Ser. Istor. Filos. 5, 149-166 (1948). (Russian) 10-175.

The problem of the true motion of the earth in Galileo's "Dialogue". Trudy Inst. Istor. Estest. Tehn. 1, 249-266 (1954). (Russian) 16-660.

Osnovy teorii otositel'nosti i kvantovoi mehaniki v ih istoricheskom razvitii. [Foundations of the theory of relativity and quantum mechanics in their historical development.] Izdat. Akad. Nauk SSSR, Moscow, 1957. 328 pp. 19-95.

Lomonosov, Lobačevskii, Mendeleev. Očerki Žizni i Mirovozzreniya. [Lomonosov, Lobačevskii, Mendeleev. Outline of Life and World Outlook.] Akademiya Nauk SSSR, Moscow-Leningrad, 1945. 334 pp. (Russian) 7-106.

Kuznecov, D.

Concerning the lines of development of the theory of plasticity. Izvestiya Akad. Nauk SSSR. Otd. Tehn. Nauk 1950, 760-769 (1950). (Russian) (Ansoff) 12-303.

Kuznecov, E. S. (=Kuznetzoff; Kuznetzov; Kousnetsov)

Über die Bestimmung des Strahlungshaushaltes in der absorbierenden und zerstreuen Atmosphäre. Bull. Acad. Sci. URSS. Sér. Géograph. Géophys. [Izvestia Akad. Nauk SSSR] 1940, 813-842 (1940). (Russian. German summary) (Trjitzinsky) 3-157.

Wärmeaustausch durch Strahlung in einem sich bewegenden flüssigen Mittel. Bull. Acad. Sci. URSS. Sér. Géograph. Géophys. [Izvestia Akad. Nauk SSSR] 1941, 3-28 (1941). (Russian. German summary) 3-157.

Scattering of light in a medium bordering on a reflecting wall with given albedo. Bull. Acad. Sci. URSS. Sér. Géograph. Géophys. [Izvestia Akad. Nauk SSSR] 1942, 228-242 (1942). (Russian. English summary) (Trjitzinsky) 4-161.

Conditions for heat flows on the boundary surface of two media, radiating heat transfer being taken into account. Bull. Acad. Sci. URSS. Sér. Géograph. Géophys. [Izvestia Akad. Nauk SSSR] 1942, 243-248 (1942). (Russian. English summary) (Bergman) 4-199.

Contribution to the problem of calculation of the field of radiation in an absorbing and scattering atmosphere for a given temperature distribution. C. R. (Doklady Akad. Sci. URSS (N. S.)) 35, 241-246 (1942). (Trjitzinsky) 4-161.

On approximate equations of transfer of radiation in a scattering and absorbing medium. C. R. (Doklady Akad. Sci. URSS (N. S.)) 37, 209-214 (1942). (Kaplan) 5-52.

Theory of non-horizontal visibility. Bull. Acad. Sci. URSS. Sér. Géograph. Géophys. [Izvestia Akad. Nauk SSSR] 1943, 247-336 (1943). (Russian. English summary) (Middleton) 5-275.

On the problem of light propagation in the sea. C. R. (Doklady Akad. Sci. URSS (N. S.)) 38, 10-13 (1943). (Bourgin) 5-52.

Application of the formulae of the theory of non-horizontal visibility to the calculation of the sky's brightness and the visual range for the simplest forms of the indicatrix of scattering. Bull. Acad. Sci. URSS. Sér. Géograph. Géophys. [Izvestia Akad. Nauk SSSR] 9, 204-229 (1945). (Russian. English summary) (Smithies) 7-533.

The vertical distribution of the temperature of the atmosphere in radiative equilibrium. Akad. Nauk SSSR. Trudy Inst. Teoret. Geofiz. 1, 3-94 (1946). (Russian) (Chandrasekhar) 10-334.

Radiative equilibrium of a gaseous sphere surrounding an absolutely black body. Izvestiya Akad. Nauk SSSR. Ser. Geofiz. 1951, no. 3, 69-93 (1951). (Russian) (Kopal) 13-248.

A general method for the construction of approximate equations of transfer of radiative energy. Izvestiya Akad. Nauk SSSR. Ser. Geofiz. 1951, no. 4, 71-91 (1951). (Russian) (Kopal) 13-248.

---- and Ovčinskii, B. V.

Results of numerical solution of the integral equation of the theory of the scattering of light in the atmosphere. Akad. Nauk SSSR. Trudy Geofiz. Inst., no. 4(131), 105 pp. (1949). (Russian) (S. Chandrasekhar) 13-165.

Kuznecov, M. D.

Hydrodynamics of an eccentric ring-shaped cross-section. Doklady Akad. Nauk SSSR (N. S.) 85, 715-717 (1952). (Russian) (Wehausen) 14-424.
